## ***PERSONAL STATEMENT***

I am capable of handling any hard work given to me. I am a very active person, self-motivated and a fast learner. I get easily adapted to the environment. No matter how small or big the task I get, I take it seriously and give it my best. I am willing to learn new things at the workplace that will add value to me and be of use to the company.

### **AMBITION**

I want to be a successful person in the future as a **manager** or **networking specialist**. I want to improve technology bring more to it make our everyday life easy. I want to be able to provide jobs for people, create jobs opportunities in the community to allow people to have some income; fighting poverty is a goal set for me. With the study that I am pursuing it will be plus to fulfil my dream.

### **COMMUNITY ACTIVITY**

I am currently involved in ICT (Information communication technology) at my church called Jesus to all languages (JTL) it located in Braamfontein. My responsibility *is to fix the sound system at church and editing* but occasionally I help with some IT support. I enjoy doing activity to help others and my surrounding.
